SMK Corporation

## <Corporate News> Relocation of Shenzhen Factory

SMK Corporation (President, CEO and COO: Yasumitsu Ikeda) will be relocating its works, SMK Electronics (Shenzhen) Co.,Ltd. in Shenzhen, China.

The Shenzhen factory is the SMK Group's main overseas connector factory, where it produces a wide variety of connectors for the ICT, car electronics and industrial equipment markets.

The factory will be relocating to a high-tech business enterprise zone owned by Shenzhen City, Nanshan District local government, which is located approximately 6km from the current factory. This industrial park comes complete with welfare facilities such as a school, company dormitory, supermarket, and canteen. The new factory is scheduled to start operating from March, 2018.

By relocating to a new factory, we will be equipped to handle a wider range of products.
