

Interface Connectors

5 Pins Connector for USCAR-30 Standards

■ Features

1. Conforms to the USCAR-30 standard.
2. Conforms to the USB2.0 standard.
3. Integrating a case and hold-down mechanism with the connector allows it to be mounted in once, helping to simplify mounting work and improve assembly workability.
4. Automatic mounting available with a vacuum space.
5. Rich color variation and different key codes are available.

■ Specifications

- Number of Pins : 5
- Mounting Method : Contact: SMT, Shell: DIP(Reflow)
- Mounting Direction : Right-angle
- Locking Joint System : Full-locking
- Rating : 5V DC, 1.5A
- Contact Resistance : 50mΩ max.
- Insulation Resistance : 100MΩ min. at 100V DC
- Withstanding Voltage : 100V AC (for one minute)
- Operating Temperature Range : -40°C to +85°C
- Operating Life : 10cycles

□□ : Differs by key codes and colors. Please contact us for more information.

Socket : CSS5305-5H□□F
